

# Interested in Partnering with Us?

## Who Are We?

AsOne is a robust IPA whose mission is to provide primary care, mental health services, substance abuse treatment, care management, and social determinants of health assistance in a unified family-based treatment approach aimed at servicing intergenerational and complex health needs. Anchored in community-based providers, evidence-based care, and a population health approach, AsOne delivers sustainable improved health outcomes for children, adults, and families.

Our vision is of an evidence-based healthcare treatment system that acts “as one” in delivering whole-person care to all.

## How Can We Help Your Organization?

### Shared Quality Oversight

Launching quality initiatives to improve performance for priority value based payment metrics at both partner and network levels.

### Infrastructure & Capacity Building

Activities to establish governance and legal structures. Training and development to prepare the workforce for Value Based Payments and Population Health.

### Data Sharing, Analytics & IT

Implementing a shared data and IT platform to connect partners in the network, better understand our population through analytics, manage clinical performance, and review comprehensive clinical data about patients.

### Clinical Integration

Efforts to implement new shared workflows within the network, coordinate and streamline referrals within the network, implementing standard workflows and in-take processes.
